Labour Research is published monthly and provides all the information union reps need to keep up to date on what's happening in unions and how the government's policies affect unions and their members.

It also features regular updates on workers' legal rights and changes in employment law, latest information on health and safety at work, equality matters and European Union developments.

LRD Booklets provide invaluable information on a range of trade union and labour movement concerns such as health and safety, state benefits and sick pay - as well as rapid analysis of new developments affecting trade unionists - such as new employment laws and codes of practice. An average of 10 or 11 booklets are produced each year. All GMB Regions have a file copy of each LRD Booklet. The most popular issue is the Law at Work which is fully searchable online using the LRD Publications.

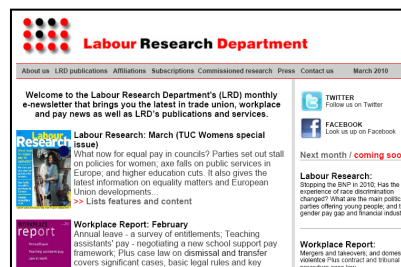

Workplace Report is published monthly and provides useful information on the latest developments on pay and conditions, best practice and news on pay deals and features LRD Surveys. Its centre section provides an update on case law developments in two areas of employment law each month. Workplace Report also regularly covers recruitment and organisation as well as learning and training at work and continues to provide news on health and safety, equality, pensions and bargaining developments in Europe.

Fact Service is a weekly publication which provides a concise update showing the latest developments for union negotiators. It gives full details of the latest official statistics on prices, earnings and unemployment, as they appear in the press, as well as coverage of key economic and industrial issues as they happen.

E-newsletter: LRD produces a monthly e-newsletter alerting you to the content of their latest publications. This is free to sign up to and you can register from the LRD main website www.lrd.org.uk When completing the online form, please ensure that you include that you are a GMB member as some newsletters are specific to GMB.
